Benefits	Healthcare, Pension, 25days annual leave
Hours	Hours: (35) hours per week (Monday – Friday)

The Company

SciBite Limited is a multi-award-winning life-sciences technology company based in Cambridge UK which is transforming the way life science organisations handle text and documents. Our semantic deep-learning solutions understand the complexity and variability of content within Life Sciences yet are still simple to use. We can quickly identify and extract scientific terminology from unstructured text and transform it into valuable machine-readable data. Our tools are flexible and versatile, facilitating use by both end-user scientists and integration into 3rd party applications. Our team of expert software engineers and data scientists are at the forefront of the latest developments in AI, such as ontologies, knowledge graphs and machine learning. You'll get to work directly with Elsevier's world-leading set of resources, literature, and databases and SciBite's semantic text analytics technology – a formidable combination that exists nowhere else.

Duties

- Developing and maintaining infrastructure-as-code
- Deploying n-tier applications on client sites and on the cloud
- Managing CI/CD systems
- Work to deliver exceptional customer support at all times

Qualifications/Skills/Experience

Essential	<ul style="list-style-type: none"> • Experience deploying and working with public cloud, ideally AWS • Configuration management and infrastructure as code (eg. CloudFormation, Ansible , packer etc) • Good scripting ability in Python • Management of CI/CD systems, eg. Jenkins, Jenkinsfile • Git, Github • Linux admin experience and shell scripting • Containerization, ideally Docker - creating and deploying images • Core networking and load balancing
-----------	---

	<ul style="list-style-type: none"> • Experience in taking on new challenges outside of their comfort zone, taking in new technologies as and where necessary • Comfortable in representing SciBite at customer and public meetings and strong interpersonal skills • Bring the right 'Can Do' approach to fit our company culture • Experience with hooking into common identity management systems (oauth2, LDAP, etc) to secure web applications • Experience with reverse proxy setups
Desirable	<ul style="list-style-type: none"> • Experience with Elasticsearch cluster management • You'll be running SAAS systems for customers so some level experience at this interaction is desirable • Experience with KeyCloak

What We Offer

A career at SciBite comes with the chance to help tackle real-world challenges of some of the biggest companies in biomedicine and beyond. Coupled with that comes competitive salary, a fantastic benefits package, share options and the chance to work in an environment that encourages innovation and personal development. Perhaps most importantly, working at SciBite offers a chance to enjoy working in a small, friendly team where what you contribute really makes a difference.

With an incredible roster of customers, you'll be working on real products that are positively impacting health and technology across the world. As part of the Elsevier group, you'll also have access to all the resources of a major FTSE-100 company, including an unparalleled data and technology collection that presents a myriad of new innovation opportunities. Furthermore, you will benefit from many education & training resources, including a minimum of ten days per year technical training. If you're excited by innovation and want to join a company that's breaking new ground and growing quickly, please apply
